

ISHLT Strategic Investment Fund Project Proposal Questions

Before beginning your online proposal submission, take time to gather the information you'll need by reviewing the following survey questions.

Plan to answer all the questions as completely and succinctly as possible. Do not submit a proposal for research grants, endorsement requests, standards and guidelines documents or consensus conferences. If you have questions or need assistance, email ISHLT COO, Aaron Adair, at aaron.adair@ishlt.org or call +1-312-224-1261.

Proposals are due no later than 30 April.

Survey Questions

When submitting your proposal online, you will be asked to answer the following questions.

General Information

First Name:
Last Name:
Organization:
Email Address:

If this project is being proposed in collaboration with an ISHLT committee, task force or other volunteer body, indicate which:

If this project being proposed in collaboration with any other organization, institution or company, indicate which:

Project Description

Proposed Project Name:

Describe the project in non-technical terms and identify major objectives, expected results and impact:

ISHLT Program Area
(Check all that apply)

Global Collaborations
Expanding Access to Care
Fostering Innovation
Data Collection and Analysis
Education

Research
Quality/Standards
Membership Benefits
Other

Target Audience

Describe the target audience(s) for the project’s deliverables:
(e.g., professionals, patients, legislative or regulatory bodies, members, other stakeholders, etc.)

Interdisciplinary Area of Focus
(Check all that apply)

- Advanced Heart Failure & Transplantation
- Advanced Lung Failure & Transplantation
- Mechanical Circulatory Support
- Pulmonary Vascular Disease (PAH & CTEPH)

Multidisciplinary Area(s) of Focus
(Check all that apply)

- | | |
|------------------------|------------------------------|
| Allied Health | Pediatric Pulmonology |
| Anesthesiology | Pediatric Transplant Surgery |
| Cardiology | Perfusion |
| Cardiothoracic Surgery | Pharmacy |
| Critical Care Medicine | Pulmonology |
| Engineering | Research |
| Immunology | Social Science |
| Infectious Diseases | Thoracic Surgery |
| Nursing | Transplant/VAD Coordination |
| Pathology | Other |
| Pediatric Cardiology | |

Project Impact

How will the project benefit ISHLT and its members?

What geographic regions will be engaged or impacted?

How might the project have a measurable impact on diversity, equity and inclusion?

Deliverables

Describe the gap in ISHLT programs and activities the proposal addresses:

Detail the specific materials or deliverables of the project:
(e.g., standalone publication or white paper, publication in JHLT, in-person educational event, virtual synchronous or asynchronous education, survey, enduring resource, annual meeting presentation, etc.)

Describe how the success of this project might be assessed:
(e.g., via a participant satisfaction survey, based upon revenue goals, based upon participation goals, etc.)

Other Considerations

If the project updates, extends, or potentially duplicates existing ISHLT activities, products or publications or those developed by other organizations, provide details:

Describe any obstacles that may need to be addressed:

Will the project require independent/expert review?

Budget and Timeline

What, if any, are the anticipated startup costs of this project?

What, if any, ongoing costs are expected in future budget years?

What, if any, outside funding is available?

What, if any, are the anticipated revenues from this project?

Provide a Proposed Timeline

Volunteer and Staff Requirements

Describe the role of ISHLT volunteers in the project:

List any ISHLT committees or task forces that might contribute to the project:

List any nonmember individuals or organizations that might contribute to the project:

Describe ISHLT administrative staff support needed:

Ethics and Conflicts of Interest

Is the scientific and educational content of this activity in compliance with the Declarations of Helsinki and Istanbul and with ISHLT's Ethics Statement?

If industry employees will contribute content to this activity, provide information about their unique qualifications justifying their involvement and describe the process for eliminating commercial bias:

Will this project require collection of conflict-of-interest statements from participants?
