

ISHLT

A Society that Includes Basic Science, the Failing Heart, & Advanced Lung Disease

Call for Applications
Associate Director for Pediatric Heart Transplant
ISHLT International Thoracic Organ Transplant Registry

Application Deadline: January 31, 2019

The ISHLT Thoracic Transplant (TTX) Registry is seeking applications for an Associate Director for Pediatric Heart Transplant. This is a 5-year term where the successful candidate will work on the tasks established by the TTX Registry Steering Committee and the ISHLT Board of Directors. The responsibilities will include scientific work on annual registry reports, review and mentorship of Transplant Registry Early Career Award recipients, and various other aspects of successful operation of this international Registry. The position will begin in April 2019 and will include an initial year of shadowing the current Associated Director in the final year of his term.

For detailed information on the structure and responsibilities of the ISHLT Transplant Registry Steering Committee please see the Registry web page: [https://ishlt.org/committees/international-thoracic-organ-transplant-\(ttx\)-regi](https://ishlt.org/committees/international-thoracic-organ-transplant-(ttx)-regi).

If you are interested in this position, please submit a short statement of interest along with your CV to Megan Barrett (megan.barrett@ishlt.org) by **January 31, 2019**.

For any questions regarding this position, please contact Dr. Joseph Rossano, Associate Director for Pediatric Heart Transplant (RossanoJ@email.chop.edu) or Josef Stehlik (josef.stehlik@hsc.utah.edu).
